

Nissan Sentra

1990

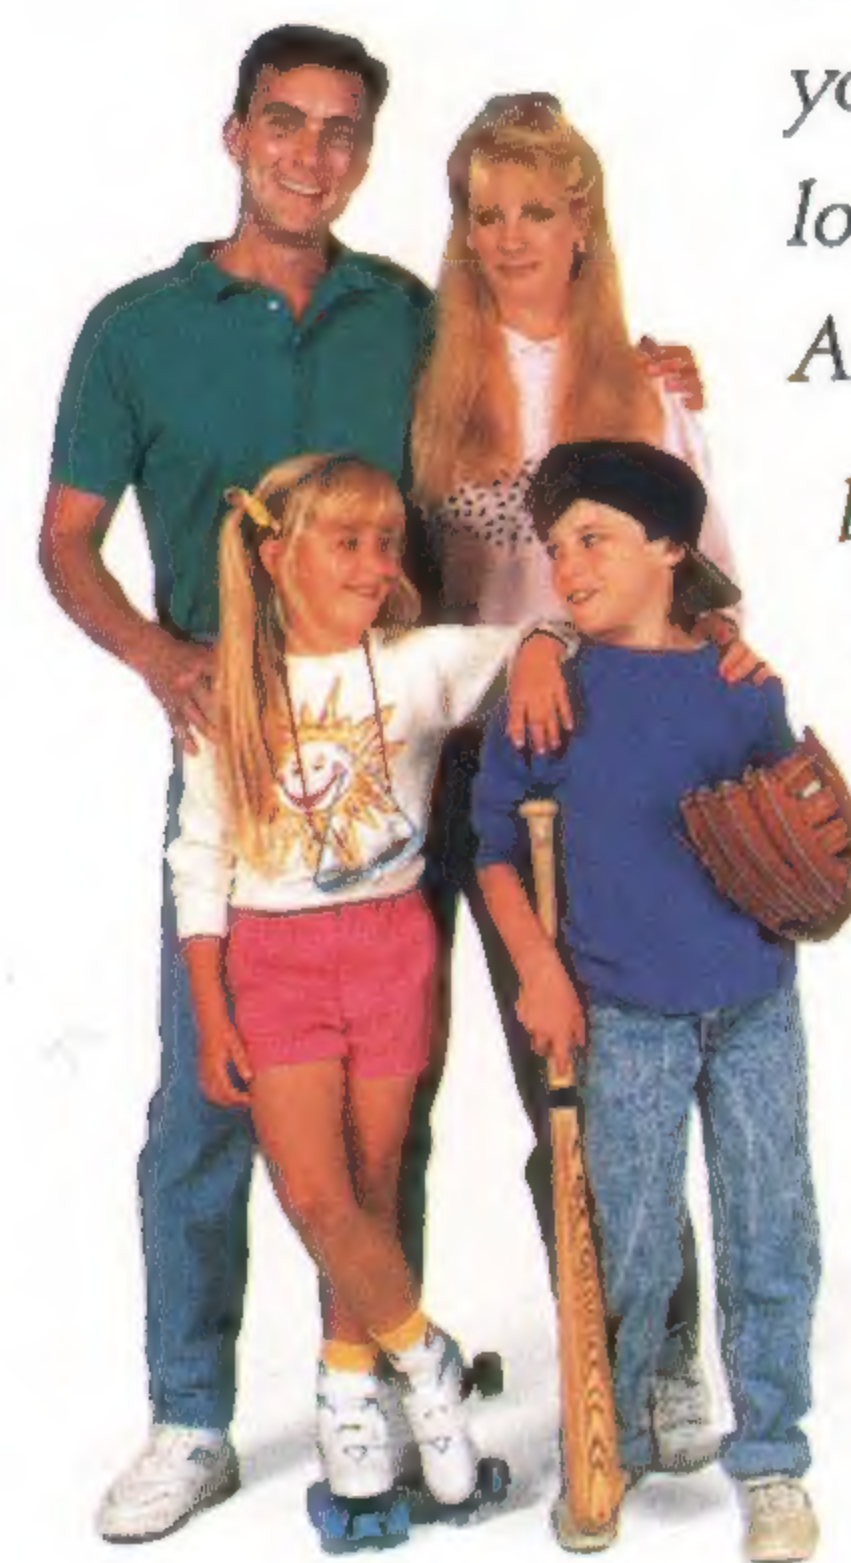

No matter how
you look at it,
a Nissan Sentra
is as pleasing
to drive as it is
affordable to own.

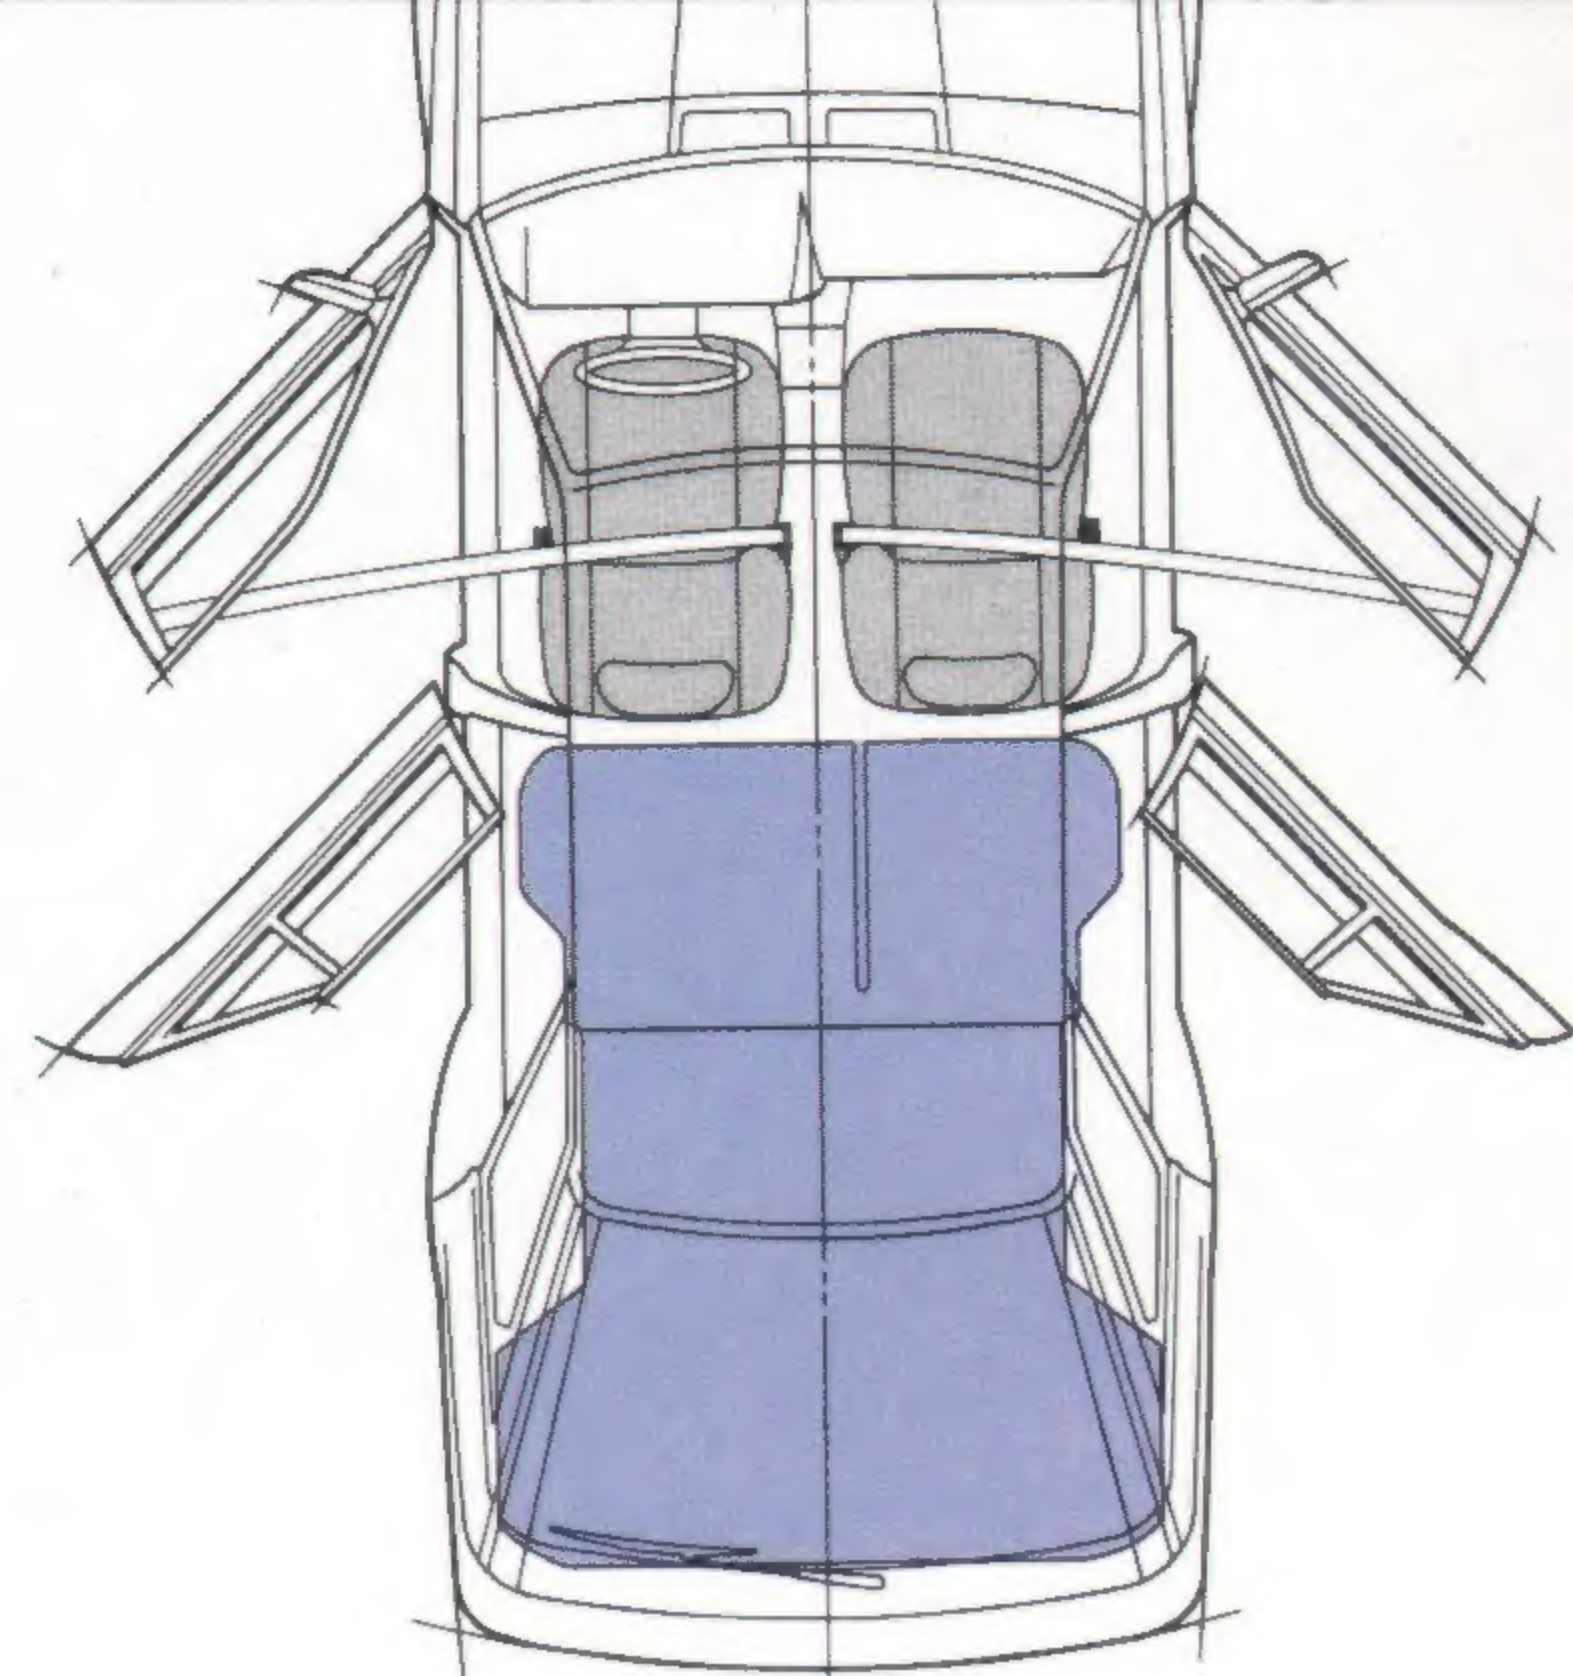

▲ The 1990 Nissan Sentra
XE 4-Door Sedan. Shown
in Cherry Red Pearl, with
Value Option Package.

Quality, value, performance and style in one handsome package.

The Right Mix.

When it comes to buying a new car, we know you have certain concerns. For example, you want a car you can depend on. And one that fits your lifestyle—whether you're part of a growing family or just starting out on your own. You'd also like a lot of features for the price. And, of course, style and performance, too. Luckily, Nissan offers an affordable car that meets each of these demands—the 1990 Nissan Sentra.

Designed to Suit Your Lifestyle.

Growing families are sure to appreciate the five doors and generous cargo space of the Sentra Wagon. It gives you room for baseball bats and beach balls, alike.

Power and Performance.

If your driving calls for extra power and performance, Sentra's fuel-injected, 90-hp, 12-valve engine is more than adept at climbing hills and merging onto the freeway.

Superb Handling.

Standard rack-and-pinion steering makes it easy to maneuver in heavy traffic and squeeze into tight parking spaces; while 4-wheel independent suspension, coil springs and stabilizer bars* make for a smoother, more enjoyable ride.

Economical.

Not only are each of the four distinct Sentra body styles economical to purchase, they're economical to keep as well. Impressive gas mileage,** low maintenance and a strong resale value are the reasons why.

Standard 2-Door Sedan

XE 4-Door Sedan***

XE Wagon***

SE Sport Coupe

▲ From front to back, the entire Sentra family displays a flair for aerodynamic styling. (XE 2-Door Sedan shown with Value Option Package.)

► Not only does Sentra's engine give you highway passing power, you'll be surprised at how many gas stations you can pass up, too.**

*Front stabilizer bar available only on those models equipped with power steering.
**See EPA estimates, page 25.
***Shown with Value Option Package.

Discover the virtues of honest value in a Sentra Sedan.

Sentra Sedans will prove to you that value, quality and performance can indeed find common ground.

Teaming a 12-valve, fuel-injected engine with a 5-speed manual overdrive transmission (4-speed on the Standard model), gives you impressive performance and excellent fuel efficiency.*

In addition, you enjoy the precise control and handling ease of rack-and-pinion steering; as well as a superb ride thanks to 4-wheel independent suspension.

And if you're looking for the ultimate in affordable value, consider the Sentra Standard 2-Door Sedan. It's value-packed with features ranging from power disc brakes up front to steel-belted radial tires.

*See EPA estimates, page 25.

▲ The Nissan Sentra XE 4-Door Sedan delivers impressive performance together with excellent ride and handling.

► Like all the other models in the Sentra lineup, the lowest-priced 2-Door Standard Sedan sports an aerodynamic exterior appearance.

Affordability never looked quite so good, or was so comforting.

A closer look at one of the Sentra Sedans reveals that the real attraction here is not just affordability, but rather, all that this sedan gives you.

The Sentra XE 4-Door's spacious 88-cubic foot interior invites you to stretch out and enjoy the ride. Up front, the reclining bucket seats have been designed and contoured to hold your body in place through the tightest curves, and to help minimize fatigue. And from that position, you'll notice excellent visibility all around.

And when you add the Sentra's Value Option Package, you enjoy extras such as power steering, an adjustable tilt steering column and a high-quality 4-speaker AM/FM stereo radio to add to your driving pleasure.

▲ The Sentra XE's spacious interior is designed to maximize comfort and support, while minimizing fatigue. (Shown here with optional 3-speed automatic transmission and Value Option Package.)

► Child safety locks on the 4-Door model's rear side doors help ensure that doors aren't accidentally opened from the inside.

► An easy-shifting 5-speed manual overdrive transmission is standard equipment in all Sentra models except the Standard 2-Door Sedan.

► Sentra's reclining front bucket seats are equipped with head restraints that adjust to your individual height.

► Available as part of the Value Option Package, or when you order power steering, the tilt steering column can be positioned to your personal preference.

The Nissan
Sentra puts
complete control
right at your
fingertips.

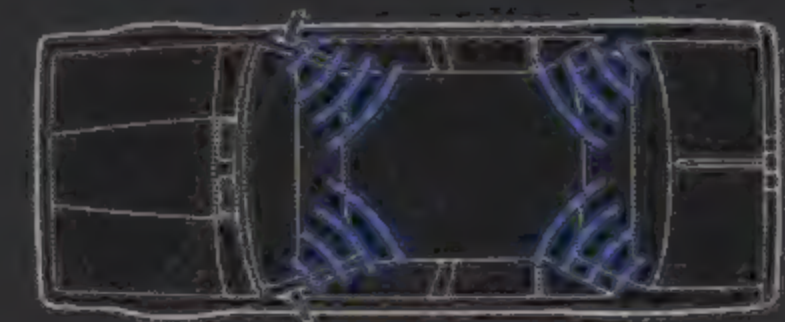

▲ Once inside a Sentra XE, you'll see that comfort and convenience don't necessarily add up to high price. (Shown with optional automatic transmission, air conditioning and Value Option Package.)

► Part of the XE's Value Option Package, remote trunk and fuel-filler door releases let you conveniently open both without leaving the driver's seat.

► Four strategically-located speakers contribute to the optimum sound reproduction of the Value Option Package's AM/FM stereo system.

► The intermittent feature of the XE's 2-speed windshield wiper is ideal for a light mist or snow.

► The Sentra's standard rear window defroster with timer helps improve visibility when the weather takes a turn for the worse.

► Dual manual remote-controlled outside mirrors, available as part of the XE's Value Option Package, are convenient and help contribute to your safety.

The Sentra with a special capacity to meet your driving needs.

With 46 cu.ft. of cargo area (with rear seatbacks folded down), the Sentra XE Wagon is ideal for anyone looking for extra cargo space and value.

Whether you're toting camping equipment for a Cub Scout troop or a week's worth of groceries, this Sentra meets the challenge. Just open up the rear hatch and you've got easy access to a generous, fully-carpeted cargo area. Plus, split, fold-down rear seatbacks can extend that cargo area even more.

In terms of technological features, this Sentra's really packed there, too. It comes with a 5-speed manual overdrive transmission, power-assisted front disc brakes for sure stopping power and a 4-wheel independent suspension system to smooth the ride.

▲ The front-wheel drive XE Wagon offers that same Sentra performance and value—plus lots of extra room. (Shown with Value Option Package.)

► Brighter than conventional sealed beams, Sentra's integrated halogen headlights project their light much further into the distance.

► The XE Wagon's split, fold-down rear seatbacks allow you to carry oversized items such as skis on one side and a passenger on the other.

► A standard wide-sweep rear window wiper/washer helps maintain your visibility in back when the weather's less than ideal.

Proving that driving fun and practicality can go hand in hand.

If it's sports styling and excitement you want, you'll find that our Sentra Sport Coupes—in XE and SE trim levels—are quick to deliver.

Rev it up and away you go, propelled by the power of a 12-valve, 90-hp engine. Feel it respond as you use the 5-speed manual overdrive transmission to put it through its paces. Or, if you'd rather not shift gears yourself, there's an optional 3-speed automatic.

You'll quickly discover you can handle the tightest turns with ease, thanks to its 4-wheel independent suspension and power rack-and-pinion steering. And power brakes—another standard feature—help you balance this Sentra's performance with good control.

*See EPA estimates, page 25.

▲ The SE Sport Coupe is an exciting choice for anyone who's looking for a practical car and economical performance*.

► The SE's standard flip-up/removable sunroof can be easily removed and stored in its own protective cover.

► Lightweight alloy wheels and wide steel-belted radial tires contribute to the SE Sport Coupe's distinctive style and performance.

Comfortably move into the fast lane in a Sentra SE Sport Coupe.

It's true. Life in the fast lane can also be quite comfortable if you're sitting behind the wheel of a Sentra SE Sport Coupe.

Designed to fit you like a glove, its adjustable driver's seat cushions you through the tightest turns and over the roughest roads. From here, you can take full advantage of the large, clear, easy-to-read instrumentation. Rest your hands on the steering wheel and note how it can be raised or lowered to your preference—as well as moved out of the way when you're getting in or out of the car. And from this position, you'll appreciate the extensive array of standard features that includes a powerful, 4-speaker electronically-tuned AM/FM stereo radio and flip-up/removable glass sunroof.

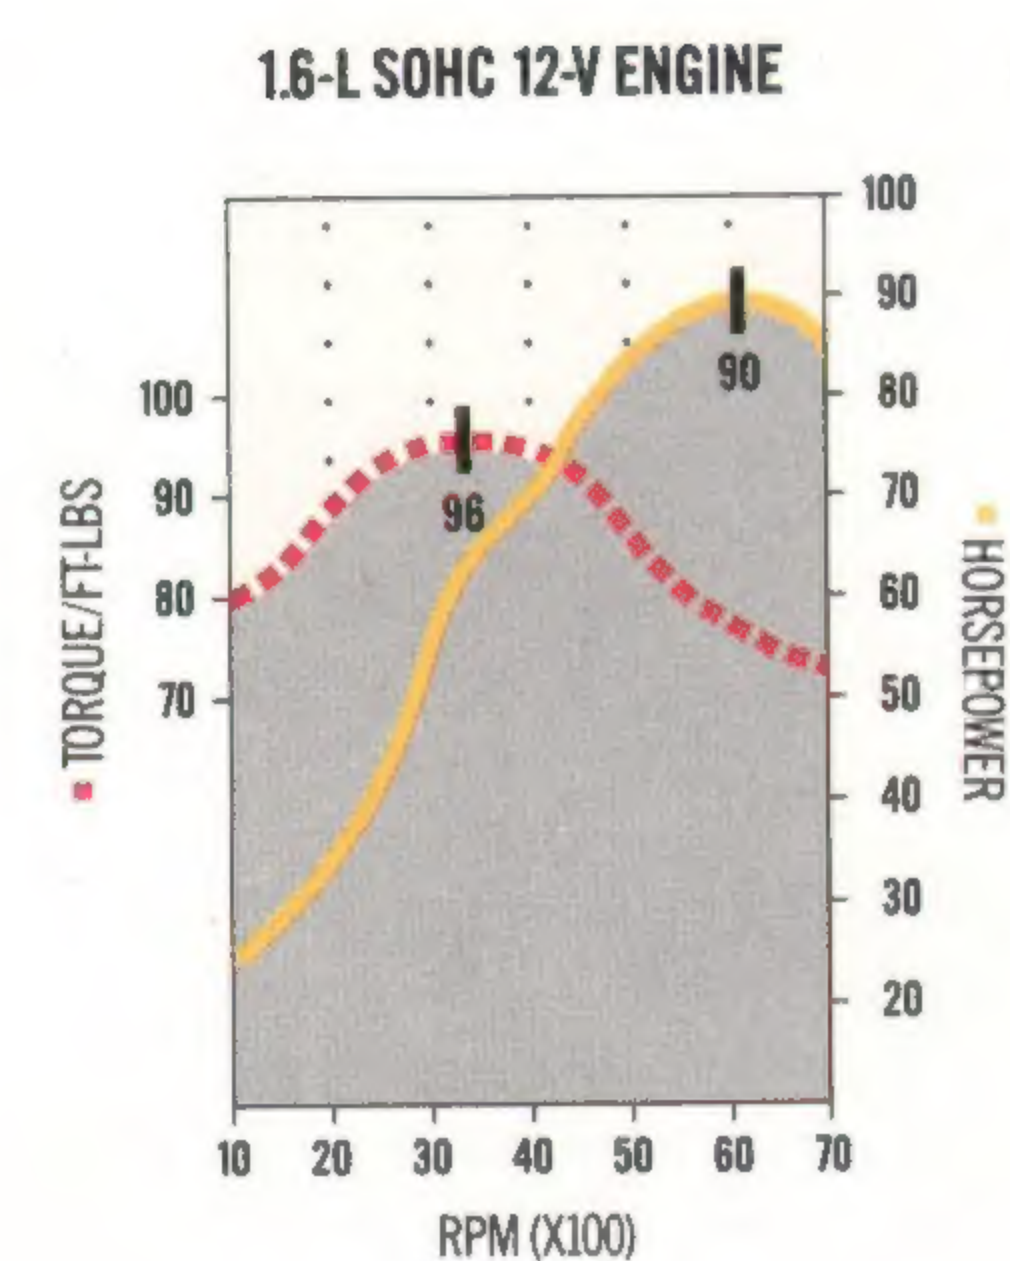

▲ The SE Sport Coupe features a softly contoured, adjustable driver's seat with an adjustable head restraint. (Shown with optional equipment.)

► The SE's easy-to-read instrumentation is a product of Nissan's belief that an informed driver is a better driver.

► A standard feature on both Sport Coupe models, split fold-down rear seat-backs let you extend the cargo area even further.

► The Sport Coupe's cargo area security cover hides your luggage and, at the same time, serves as an extra shelf behind the rear seats.

The potent performance comes from an advanced 12-valve engine.

In creating the Sentra, Nissan's engineers began by designing an engine that would be powerful, highly efficient and very reliable. What they produced was a lightweight yet strong, technologically-advanced, 1.6-liter, SOHC, 12-valve 90-horsepower engine.

For excellent breathing and power output, there are three valves per cylinder—two intake

and one exhaust. Fuel is delivered through an injection system with intake ports designed to ensure efficient combustion. And, to help reduce noise and vibration to a purr, the valve train incorporates lightweight aluminum rocker arms and hydraulic lash adjusters. The bottom line? Smooth, positive response with strong acceleration at high speeds.

Sure-footed front-wheel drive.

With Sentra, you put all of this power on the road through the traction of front-wheel drive. And not only does that design mean you enjoy a more secure feel for the road, it gives you additional passenger room inside.

Smooth-shifting transmissions.

Sentra features a smooth-shifting 5-speed manual overdrive transmission as standard on all XE and SE models.* With its overdrive 5th gear designed especially for highway driving, these Sentras deliver truly impressive performance. If, however, you'd prefer to leave the shifting to someone else, an optional 3-speed automatic with

lock-up torque converter is also available. (Not available on Sentra Standard Sedan.)

Superb handling and ride.

Sentra handles well and rides comfortably thanks to its 4-wheel independent suspension. At each wheel, there's a coil spring plus a MacPherson strut-type suspension which enables that wheel to react independently to bumps. In front, the lower control-arm design and stabilizer bar** give you a precise feel of the road while reducing body sway. While the rear suspension incorporates a stabilizer bar plus lower parallel links to improve stability and ride.

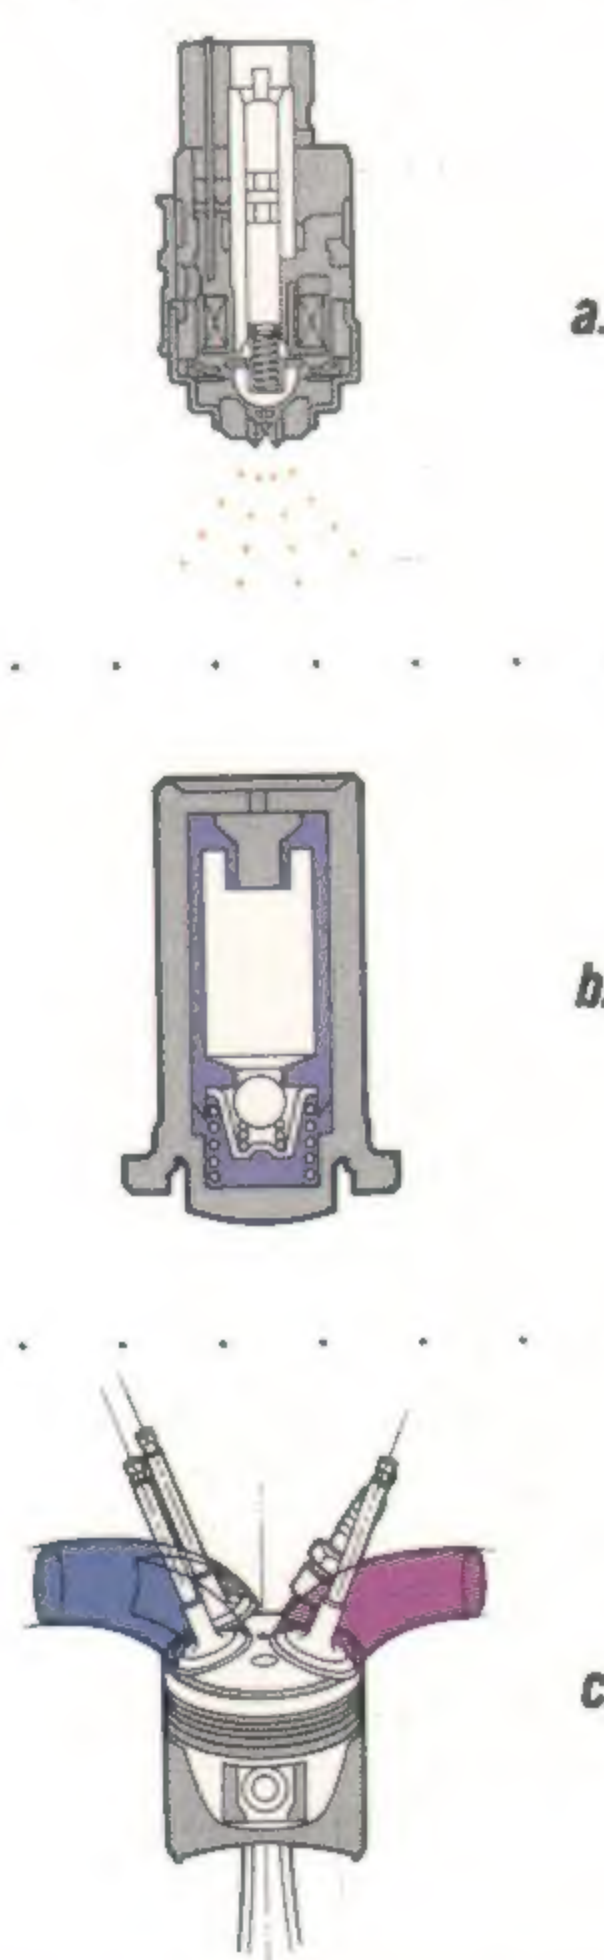

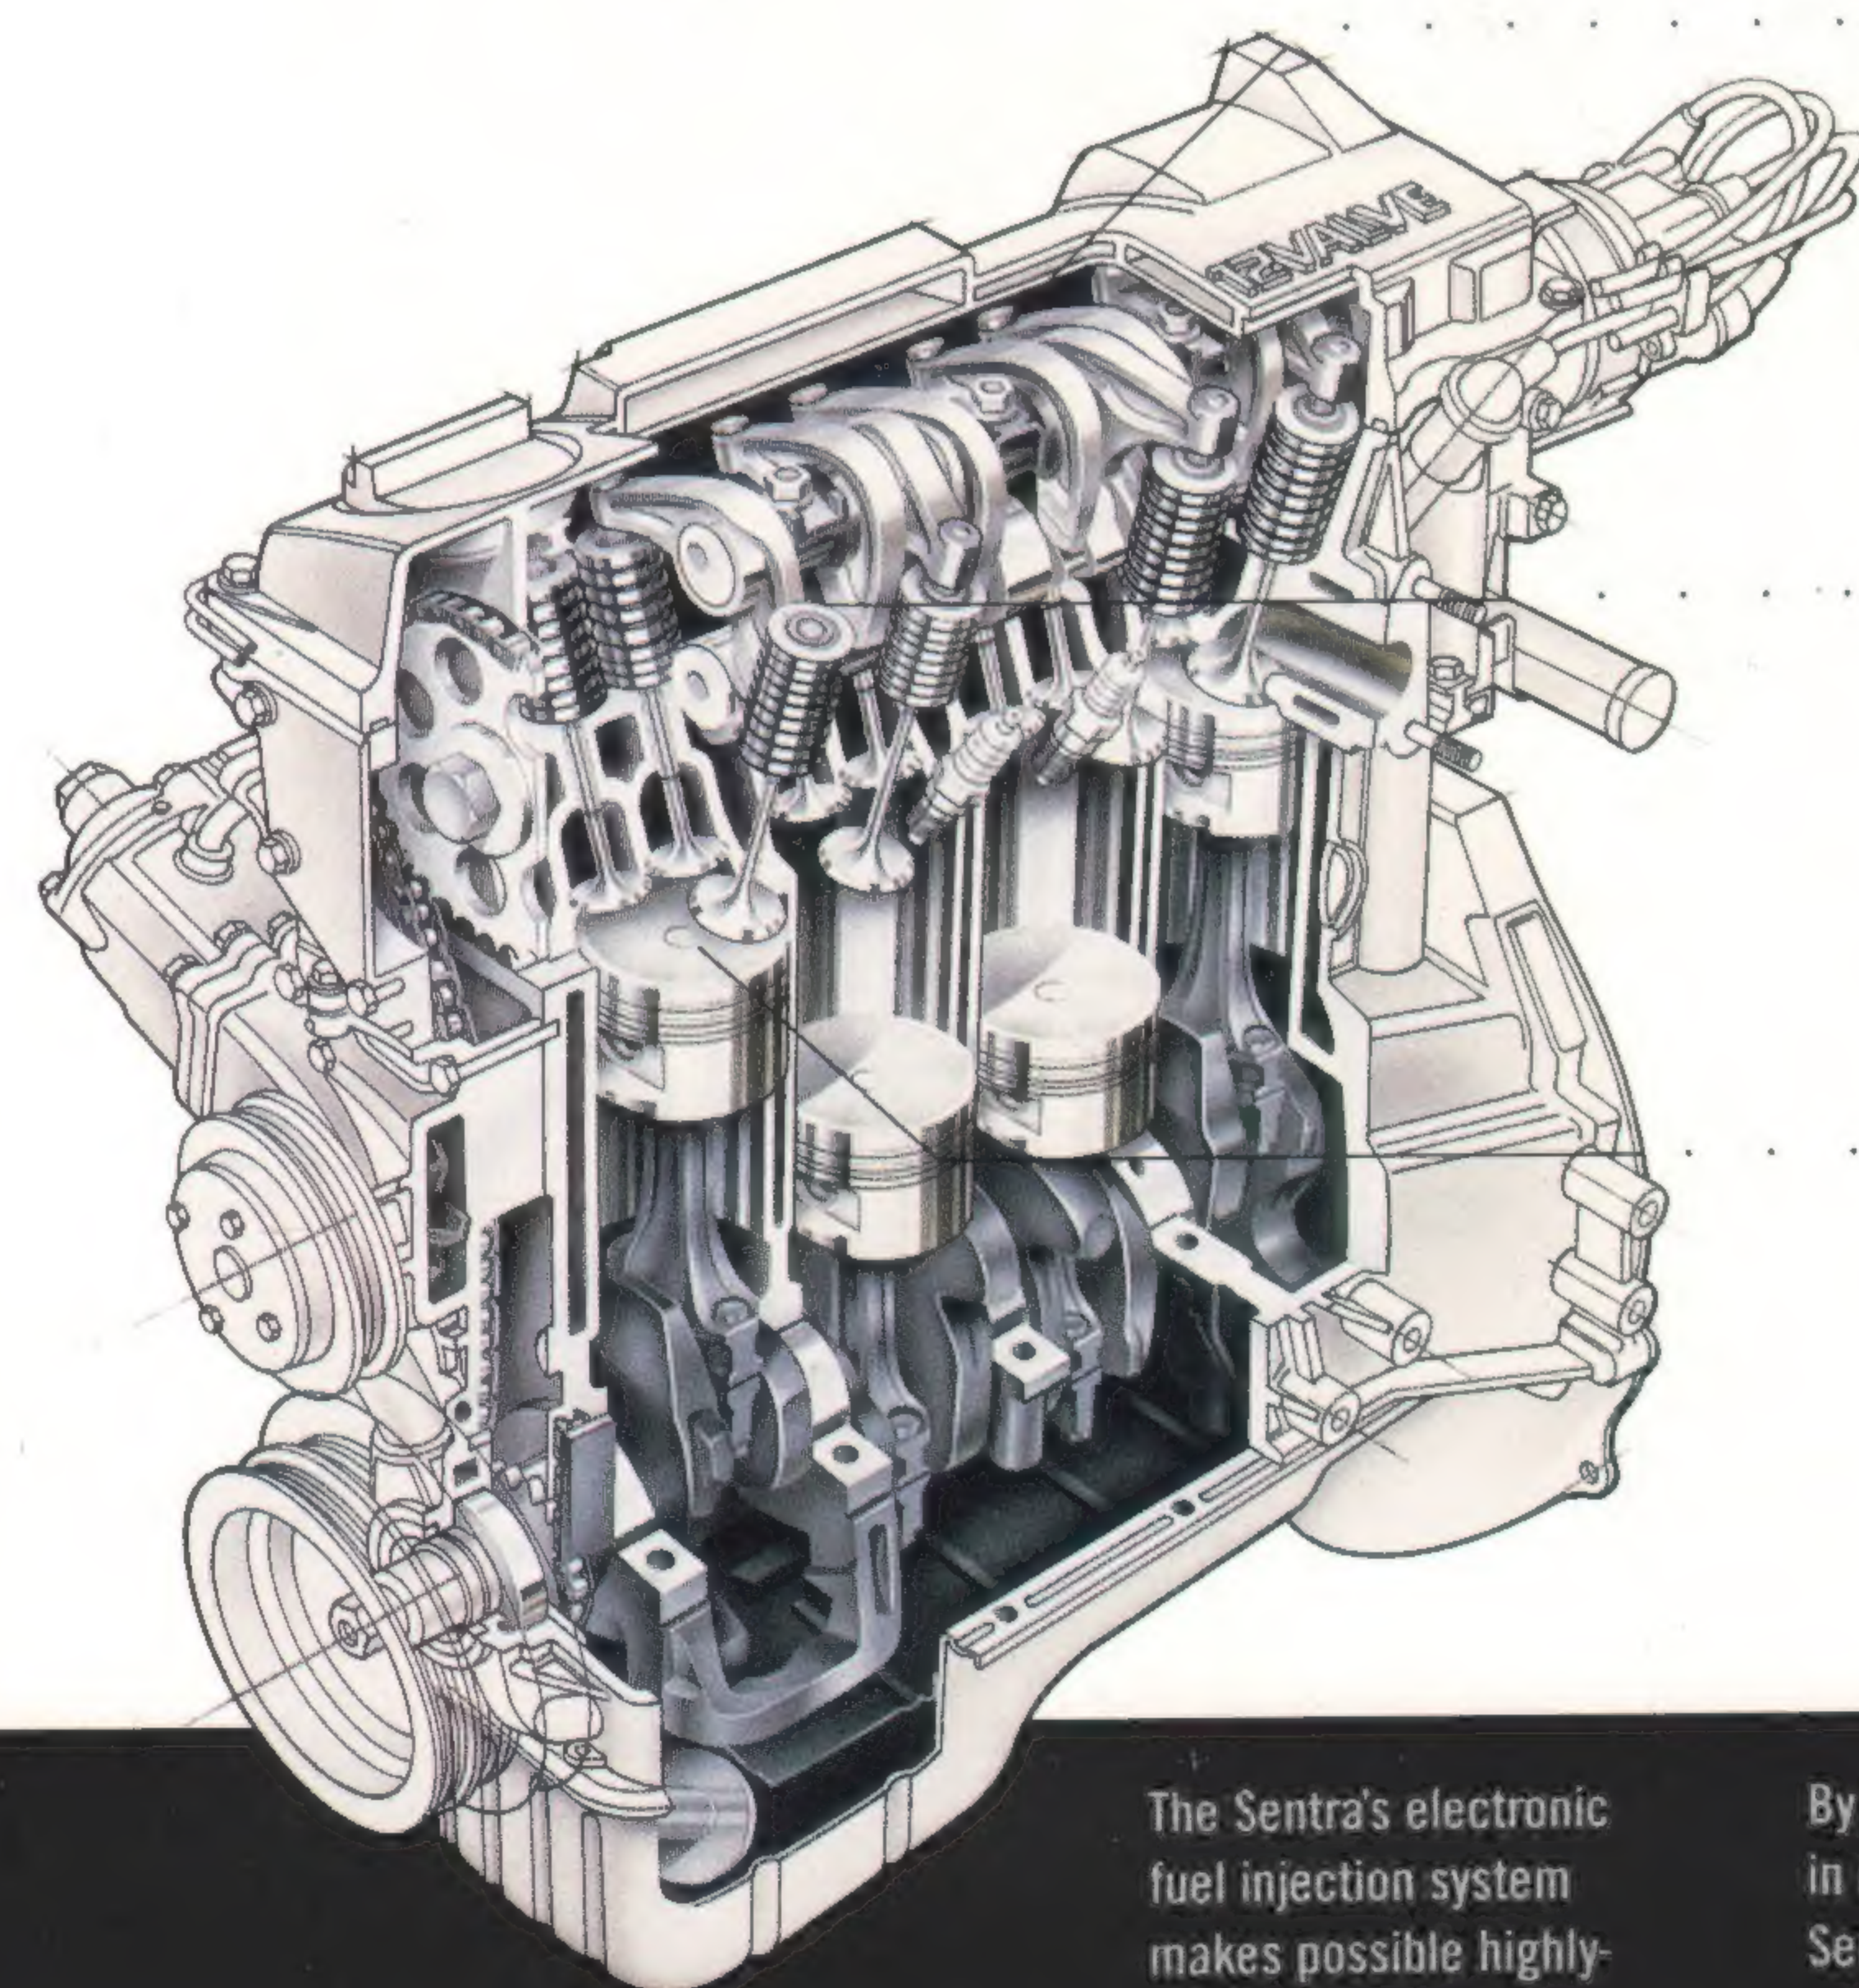

*A 4-speed manual transmission is standard on the Sentra Standard model.
 **Available only on those models equipped with power steering.
 ***See EPA estimates, page 25.

Strong performance is the result of Sentra's 12-valve, 1.6-liter engine.

A 3-speed automatic is offered as an option on most models.

The Sentra's electronic fuel injection system makes possible highly efficient combustion, which translates into better gas mileage.**

a.

By keeping the valves in constant adjustment, Sentra's hydraulic valve adjusters help to reduce engine maintenance.

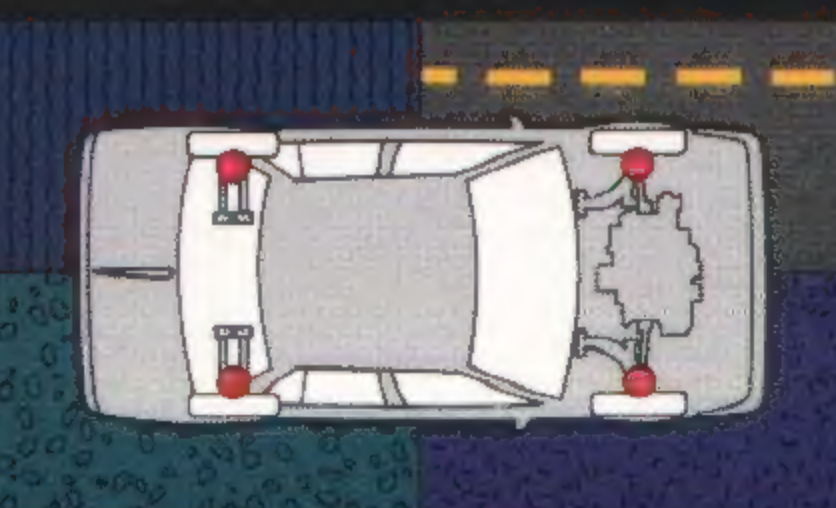

b.

Three valves per cylinder allow the engine to "breathe" more easily, resulting in smoother operation and better acceleration.

c.

► Sentra's 4-wheel independent suspension system which enables each wheel to react independently to the road's surface gives you a better ride.

Personalize and protect your new Sentra with Genuine Nissan Accessories from Nissan.

At Nissan, we understand that you'll find certain accessories indispensable in outfitting your Sentra to meet your personal needs. That's why we offer such a complete line of Genuine Nissan Accessories. And because they're Genuine Nissan Accessories, you can be sure of easy installation, a proper fit and a factory-backed warranty.

Nose Mask and Fog Lights

Custom-fitted nose mask protects the front grille, while fog lights help light the way when conditions are less than ideal.

Four Season Climate Control

Help keep the interior just right with Nissan's Four Season Climate Control air conditioning. It cools on hot summer days, and in winter helps keep the windows fog-free.

Carpeted Floor Mats

Keep the inside looking as good as the outside with specially embroidered floor mats, in colors that exactly match your Sentra's interior.

Rear Deck Rack

Extra carrying capacity can be added to your new Sentra with the specially designed deck rack. Its sturdy form combines function with sporty good looks.

Louvered Shade Kit

Keep the Sentra Sport Coupe cool inside with these specially-louvered rear window shades. They keep the sun out, but provide clear rear-window visibility.

Audio Systems

Surround yourself in sound with the clarity of one of Nissan's optional audio systems. There is a wide variety of units to select from, with features ranging from an electronically-tuned AM/FM stereo radio with seek and scan tuning to an auto-reverse cassette with Dolby® noise reduction.

Car Cover

Protect your Sentra from the elements with a custom-fitted car cover and optional cable lock.

Splash Guards

Specially-designed Nissan front and rear splash guards help keep harmful road debris away from your Sentra.

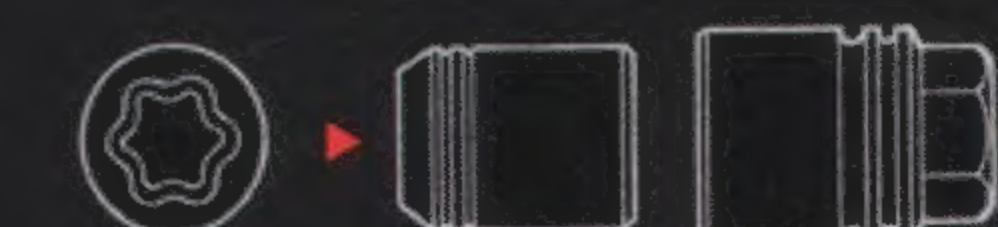

▲ Genuine Nissan Accessories such as the nose mask, fog lights, shade kit and rear spoiler shown here on the Sentra SE

Sport Coupe not only dress up your vehicle, they protect your investment, too.

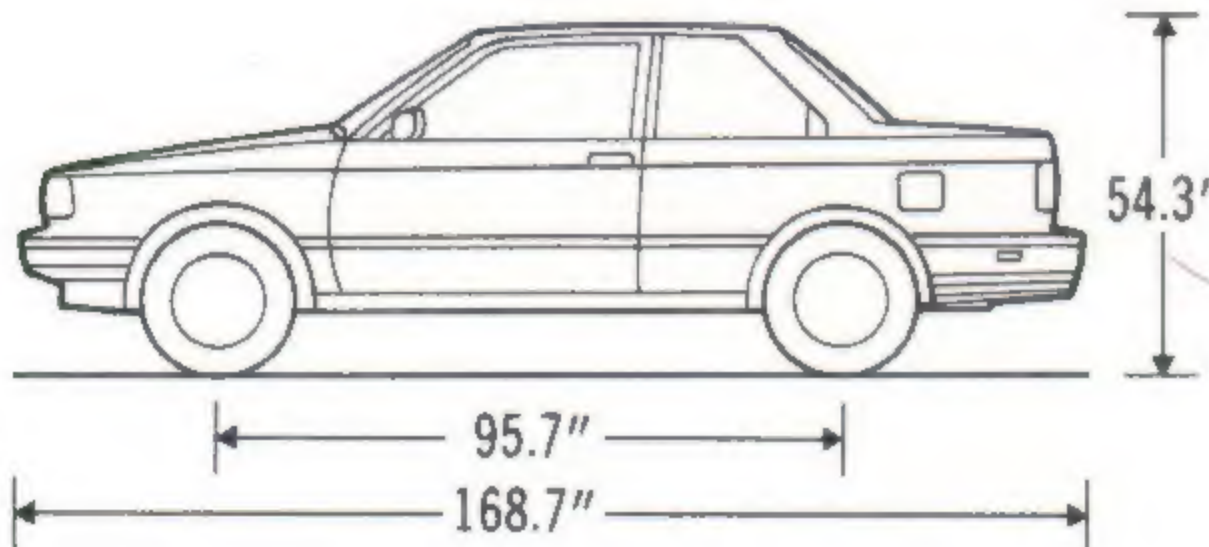

► Nissan's Vehicle Security System protects your Sentra through delicate sensors at numerous strategic locations.

► Easy-to-install locking lug nuts for your Sentra's wheels utilize a unique puzzle-style lock to help deter thieves.

► A passive shoulder belt system is now installed on the front seats of every new Sentra. But, don't forget to buckle your lap belt, too.

1—Automatic transmission option on XE Coupe includes AM/FM stereo radio.
2—Available as a separate option on automatic transmission models or as part of Value Option Package.
3—Rear only.
4—Rear only on manual steering models.
5—Part of Value Option Package.

6—Driver side only.
7—With manual remote control.
8—Including rear cargo area.
9—Available only on those models equipped with power steering.
10—2-speed wipers with mist cycle.
11—Included with automatic transmission option.

12—Available only with AM/FM stereo radio option.
13—Motorized system.
14—Stabilizer bar available only on those models equipped with power steering.
15—1990 EPA mileage figures shown. See your Nissan dealer for details.
16—Extra-cost option.
N.A.—Not Applicable.

Specifications and equipment based on information available at time of printing and subject to change without notice. Some vehicles shown with optional equipment; see Features/Specifications charts. For more details on 1990 options, accessories and specifications in your area, contact your local Nissan dealer.

BELT YOURSELF Nissan Motor Corporation in U.S.A., and your Nissan dealer urge you to be a smart driver and use your seatbelt/shoulder belt whenever you drive. It does save lives. Remember, if you don't belt yourself, you're kidding yourself.

A sincere commitment that extends to every area of vehicle ownership.

With Nissan, from the day you first enter one of our showrooms to the day you trade in your vehicle, you'll witness our commitment to satisfying your needs.

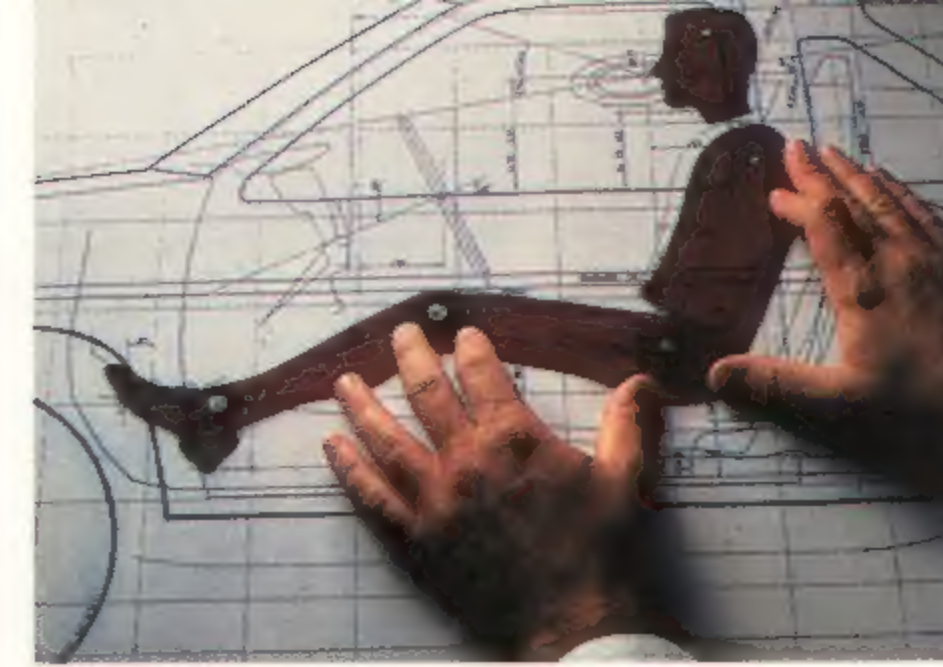

Customer satisfaction starts with the right product for you. So we offer you 34 car and truck models to choose from—each designed and equipped to meet the varying needs of today's discerning drivers.

In addition, Nissan and our nationwide dealer body have

committed the combined services of over 59,000 employees throughout the United States, as well as other resources, including the innovative Nissan Design International in La Jolla, CA; NMMC, a state-of-the-art manufacturing facility in Smyrna, TN; Nissan Research and Development in Ann Arbor, MI; plus one of the world's most sophisticated proving grounds—the Arizona Test Center—located near Phoenix.

Testing on some of the world's most rigorous proving grounds ensures that every Nissan car and truck is ready for the human race.

NDI is an advanced design facility located in La Jolla, California.

In all, Nissan commits over \$4 billion to U.S.-sourced goods and services each year.

Coast-to-coast dealer support.

The strength behind our commitment to customer satisfaction comes from a nationwide network of over 1,100 dealers. These Nissan representatives are the ones to look to for courteous service whenever you're far from home.

Reassuring warranty coverage.

Every 1990 Nissan offers the protection of a 3-year/36,000-mile "bumper-to-bumper" limited warranty. Completely transferrable if you sell your Nissan, this warranty is

one of the most complete in the industry with limited exclusions. There's also a 1-year/12,000-mile warranty on all Genuine Nissan Parts.

Added peace of mind—Security+Plus®.

For that extra peace of mind, you can add Nissan's own Security+Plus® Vehicle Protection Plan. Backed by Nissan and designed exclusively for Nissan owners, it's available in a variety of comprehensive coverages and provides you with long-term mechanical protection.

One-stop shopping and financing.

Through your dealer, Nissan Motor Acceptance Corporation (NMAC) offers rates and terms

that are highly competitive with most local lending institutions. In addition, you receive the added convenience of a fast loan approval. In fact, in most instances, your application may be approved while you're still at the dealership.

We're as close as your phone.

Finally, if you have a question or problem, or need product literature or a dealer referral, our toll-free number puts you in touch with Nissan headquarters. If you need us, just dial 1-800 NISSAN 1—because, at Nissan, we really are committed to ensuring that your experience with our products is totally satisfying.

*1989 J.D. Power & Associates New Car Initial Quality Survey. Based on owner-reported problems during first 90 days of ownership.

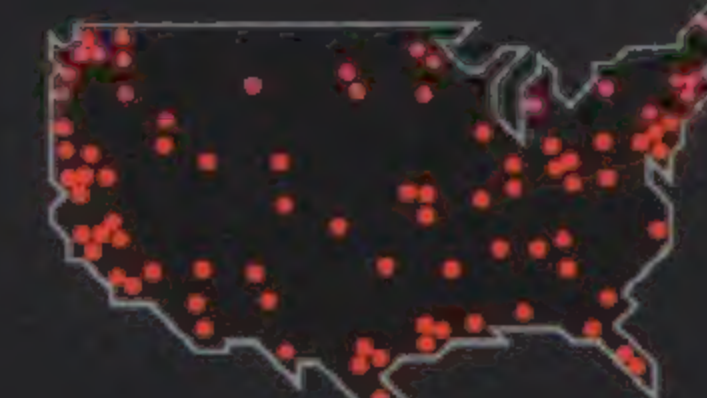

▲ We know our greatest asset is a satisfied customer. That's why we strive to make owning a Nissan something you'll want to do again.

▶ As the #1 Asian manufacturer of trouble-free vehicles, Nissan is the name to trust for quality and reliability.*

▶ With over 1,100 Nissan dealers nationwide, you're assured of prompt, courteous and reliable service whenever you're away from home.

▶ If ever you have a comment, suggestion, complaint or request, just call us toll-free at 1-800 NISSAN 1.
